**Coldstar provides Professional
Refrigeration, Air Conditioning,
HVAC and Catering Solutions
to the commercial, industrial
and retail sectors.**

About Us

Coldstar is a leading services company providing innovative Refrigeration, Air Conditioning, HVAC and Catering Solutions to the commercial, industrial and retail sectors.

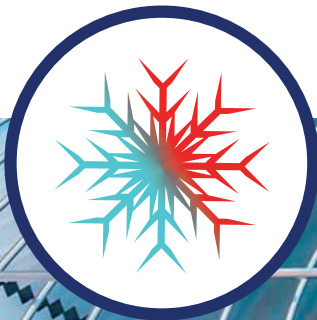

Our complete service covers every aspect of your project from the initial design and installation through to ongoing maintenance and repairs.

We're committed to delivering a quality service and we get the job done.

Our skilled team takes pride in ensuring we achieve the highest possible standards in completing your project on time and to a pre-agreed budget.

When it comes to those unexpected maintenance issues and repairs, our experienced engineers are only a phone call away. You can rely on us to react quickly and effectively to keep your operation running smoothly.

With offices located in London, Bristol and Birmingham we have the infrastructure to provide a truly national service. Our engineers are on call and ready to respond quickly to your Refrigeration, Air Conditioning, Catering Equipment and HVAC breakdowns.

Air Conditioning

At Coldstar, our engineers provide safe and reliable Air Conditioning solutions for businesses throughout the UK.

From single units to large-scale commercial and industrial requirements we design, install and maintain high quality new systems for companies of all sizes.

We also provide a full range of scheduled and reactive Air Conditioning maintenance services for previously installed Air Conditioning systems of all types.

Services include:

- Design, supply and installation
- Service and repairs to all Air Conditioning systems of all types
- Reactive and scheduled maintenance
- Emergency breakdown service
- National coverage

Refrigeration

Coldstar offers a complete refrigeration solution for business clients throughout the UK and we are well regarded in the industry as a trusted supplier of refrigeration services.

We design, supply, install and maintain all types of industrial and commercial refrigeration equipment. Because every business is different, we tailor our systems to suit each individual requirement. An installation is never too complex or too large and we can maintain equipment of all types.

We understand that any refrigeration malfunction is likely to have significant revenue consequences and that's why we only supply and install high quality equipment. However, when it comes to breakdowns and reactive maintenance our experienced engineers will respond quickly and effectively to reduce the impact to your business.

Services include:

- Design, supply and installation
- Service and repairs to refrigeration systems of all types
- Reactive and scheduled maintenance
- Emergency breakdown service
- National coverage

HVAC

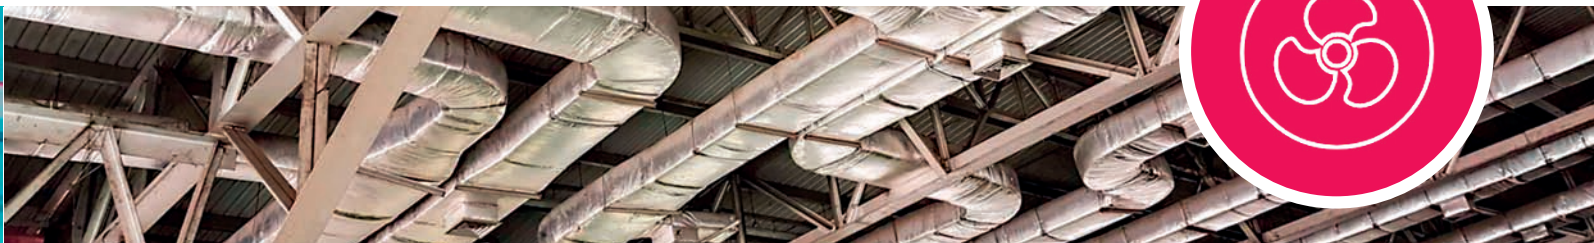

Providing the right climate for your staff and customers throughout the year is a fundamental part of running a successful operation and getting it right is crucial.

At Coldstar we are experts in all the latest cooling, heating and ventilation technologies. We specialise in Air Conditioning, cooling, heating and ventilation for the commercial, industrial and retail sectors.

Combined with our expertise in other areas such as refrigeration and catering equipment, we provide a truly integrated service for clients all over the UK.

Services include:

- Design, supply and installation
- Service and repairs to HVAC systems of all types
- Reactive and scheduled maintenance
- Emergency breakdown service
- National coverage

Commercial Catering

We understand that high-quality, reliable commercial catering equipment is vital to the success of any restaurant or catering operation.

From single restaurants through to national chains Coldstar has the knowledge and experience to offer a complete service. We design, install and maintain all types of commercial catering equipment.

Our national service includes emergency breakdown cover and all types of reactive and scheduled maintenance.

Services include:

- Design, supply and installation
- Service and repairs to all types of commercial catering equipment
- Electrical installations
- Reactive and scheduled maintenance
- Emergency breakdown service
- National coverage

Chiller and Mobile Cold Room Hire

Coldstar has a range of top-quality refrigerated trailers that are perfect for use either as an emergency replacement or as additional cold storage where required.

Our cold rooms are available to hire on either a long or short-term basis and can be deployed around the clock where an unexpected replacement is needed in an emergency.

Mobile cold room hire is the perfect solution for events, functions, festivals, weddings and during kitchen refurbishments as well as to cover those peak times when additional refrigeration space is needed.

Cold room rental from Coldstar is a hassle-free experience. Our engineers will deliver to you and take care of all the installation and connection to suit your specific requirements.

We believe our service is the best in the business. Contact us today for a quote, or to arrange your emergency replacement.

Services include:

- Short or long term hire agreements
- Fast delivery to prevent loss of stock
- Full installation and connection
- Multiple sizes available
- Fully lockable and secure
- 24 hour emergency call out service
